MESSAGE FROM THE TOWN MANAGER

SeeClickFix Empowers Residents to Help Improve our Community

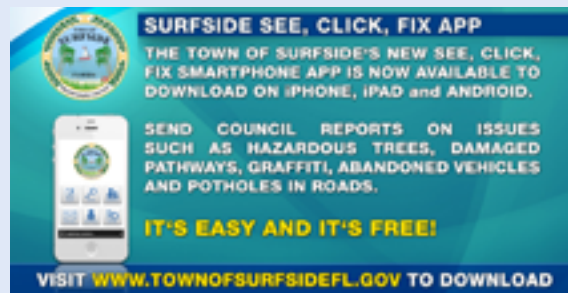

Right in your hand, you have the power to make Surfside a better community. Surfside's SeeClickFix is a mobile app that allows residents to use their smart phones to submit service requests to the Town. With a few clicks of their phone, Surfsiders can photograph, map and report issues that are impacting our neighborhoods.

You can either download this app to your smart phone or simply access it on the Town website, www.townofsurfsidefl.gov. This tool also provides feedback and updates between residents and the Town, ensuring that your issue is being solved.

For instance, a resident used the app to report that a paving stone at the base of the 88th Street beach shower was missing. The same day, Public Works replied that a work order had been generated to repair the shower base. The appreciative resident was notified when the base was fixed.

I encourage everyone to use this technology. SeeClickFix makes the process accessible and easy. Together we can work to enhance our neighborhoods, raise our community standards and improve the overall quality of life for Surfsiders.

- Guillermo Olmedillo, Town Manager

Lifeguard Honored For Beach Rescue

After he had closed the Surfside beach lifeguard station for the day, lifeguard Calvin Webb III was patrolling the beach looking for a sea turtle that had been seen earlier. Instead, he spotted three distressed bathers in the choppy surf, 100 yards from shore. He swam out to the trio and managed to get all of them to hold on to the rescue buoy and pulled them to safety. Calvin was honored at the May Commission meeting for his professionalism and quick response in a dangerous situation.

(L-R) Mayor Daniel Dietch, Commissioners Barry Cohen and Michael Karukin, Aquatics Supervisor Jackie Villagran, Calvin Webb III, Vice Mayor Eli Tourgeman, Commissioner Marta Olchyk, Town Attorney Linda Miller and Town Manager Guillermo Olmedillo.

Report With SeeClickFix

SeeClickFix is a mobile phone app for reporting conditions within Surfside that may need to be addressed by the Town. Download this free app or visit our website www.townofsurfsidefl.gov.

SeeClickFix is geo-dynamic, which means it knows where you are reporting from and directs the information to the right department. It allows you to use descriptions, photos and videos to instantly report situations that require attention and follow-up.

Through the app, you can also communicate, comment, get updates and thank those who worked to solve the issue.

Surfside Participating in the Walk to End Alzheimer's

This fall, the Town of Surfside will participate in the Miami Walk to End Alzheimer's, an event to raise awareness and funds to advance the fight against a disease that impacts the lives of millions of Americans and their families. The two-mile walk will take place on Saturday, November 7 at Museum Park, 1075 Biscayne Boulevard in downtown Miami.

You can register and join the Town of Surfside team at www.act.alz.org/site/TR/Walk2015/FL-SoutheastFlorida?team_id=268648&pg=team&fr_id=7405.

Together, we can advance research to treat and prevent Alzheimer's and provide programs and support to improve the lives of those affected. For more information or to make a donation to the Alzheimer's Association, contact Yamileth Slate-McCloud at 305-861-4863 x 227.

Dangerous Heartworms Can be Prevented

With the hot and rainy summer months comes one of the most devastating animal diseases of the tropics: Heartworm disease transmitted via a mosquito bite in which a microscopic worm larva is injected into the animal's bloodstream.

Indoor and outdoor pets are equally at risk. These larvae mature and find a home within the animal's lungs, blood vessels and heart. Eventually, the worms reproduce. As the quantity of worms increases, the cardiopulmonary system becomes overwhelmed, leading to severe disease and death, if untreated. Treatment is costly (averaging about \$1000 between diagnostics, medications and hospitalization) and can possibly cause severe complications. Heartworm causes lasting damage to the heart, lungs and arteries, and can affect the animal's health and quality of life. For this reason, prevention is by far the best option. Heartworm preventives also prevent certain intestinal parasites making it a sensible choice for all pet owners.

ALZHEIMER'S FACTS:

- 5.3 million Americans are living with Alzheimer's disease, including an estimated 200,000 under the age of 65. By 2050, up to 16 million will have the disease.
- Nearly 3.2 million (two-thirds) with Alzheimer's disease are women.
- Someone in the U.S. develops Alzheimer's every 67 seconds.
- Most people living with Alzheimer's are not aware of their diagnosis – or have not been diagnosed at all.
- Alzheimer's is not just memory loss – it kills. It is the 6th leading cause of death in the U.S.

IN MEMORIUM

SID TEPPER + 1918-2015

Sid Tepper's life was profiled in last month's Gazette as a Surfside Star. He passed on April 24, just as the newsletter was being printed. The May issue can be viewed on the Town Website. In 2008 he was honored by the Town for his lifetime achievements. He is survived by his five children, seven grandchildren and three great-grandchildren.

Video Streaming Available on Town Website

The Town of Surfside provides live video streaming of certain events so residents can see and hear from their computer, tablet, smart phone or mobile device.

This function allows you to watch specific Town meetings in real time. Go to www.townofsurfsidefl.gov and click on the "Surfside Live Video Streaming" button. You can watch the next Town Commission meeting on Tuesday, June 9 at 7 p.m.

Searching for Surfside Stars

Surfside wants to hear about interesting residents for future issues of the Gazette. If you know a Surfside Star, let us know. Email dhunziker@townofsurfsidefl.gov and include the name, photo (if available), description of the Star nominee and complete contact information.

OFFICER AND CIVILIANS OF THE MONTH FOR APRIL

Team Effort Makes First Time Dog Expo A Hit

Executive Assistant Dina Goldstein and NRO Dianna Hernandez organized a Dog Safety Expo at Haulover Bark Park on April 12, 2015. Dina and Dianna enlisted Miami-Dade Fire Rescue Station 21, Miami-Dade Police Intracoastal District and Miami-Dade Parks to participate in this first time event. They also gained support from businesses, pet stores, veterinarians and the Humane Society to donate services, treats, and toys.

Community Service Aide Danny Sanchez and Administrative Aide Donna Natale-Planas assisted Dina and Dianna with the considerable effort to make this a successful event. Parking Enforcement Officer Josue Castro was the DJ for the event and kept the crowd entertained.

The event included pet adoptions, health and wellness for animals, dog CPR, K-9 demonstrations, search and rescue and venom unit presentations, raffle and dog obedience training.

All are thanked and commended for creating this idea, following through with the significant amount of planning and preparation and work, and for making the event a popular and worthwhile experience.

(L-R) Chief David Allen, Officer Dianna Hernandez, Donna Natale Planas, Dina Goldstein, Danny Sanchez and Josue Castro.

It's the Law: Clean Up After Pooch

Taking your dog out for a walk? Please be kind to your neighbors and Town property by collecting and properly disposing of any waste your pet leaves behind.

Pet waste can transmit disease.

Angel Melendez Graduates From Police Academy

Parking Enforcement Officer Angel Melendez (center) recently graduated from the Miami-Dade College School of Justice Police Academy. Angel attended the police academy full time while working the evening shift and weekends as a parking enforcement officer. Congratulations and we hope to have Angel as Reserve Police Officer soon.

(L-R) Parking Operations Manager Elinor Joseph, Lt. John Bambis, Angel Melendez, Chief David Allen, Officer Dianna Hernandez and Officer Bryant Luke.

PayByPhone Available for Surfside Parking

Surfside now has PayByPhone parking service for residents and visitors in both off-street lots and on-street spaces.

Drivers can sign up for a free account with their credit card and license plate by downloading the PayByPhone app (iOS, Android, Amazon, Blackberry), or visiting paybyphone.com. Don't have a smartphone? Users can dial the toll-free number posted on signage and follow the voice prompts to set up an account.

For further information contact Parking Operations Manager Elinor Joseph at (305)861-4862.

Construction May Impact Surfsiders

The Florida Department of Transportation reports that Surfside residents traveling through Bay Harbor Islands and the Broad Causeway may be affected by lane closures and detours because of construction on Kane Concourse and the bridge through July 2015.

On Kane Concourse, sections of curb, gutter and sidewalks will be replaced, brick pavers will be installed at intersections, there will be new signage, paving and striping. The expansion joints on the draw bridge over the intracoastal waterway are also being replaced, requiring lane closures.

SURFSIDE HURRICANE PREPAREDNESS

Hurricane season is from June 1–November 30. Surfside residents should ALWAYS be prepared for any storm.

BEFORE THE STORM

Be Prepared: Purchasing supplies once a storm is threatening is expensive and strenuous. Shopping for items a little at a time before an event eliminates the stress and avoids long lines and empty shelves. Before the storm approaches make sure you have the following items:

- Food
- Water (Store enough water for drinking, bathing, cooking for all members of your family including pets)
- Health & First Aid
- Storage (Protect important documents in zip locked bags such as: birth certificates, social security cards, insurance documents, etc.)
- Cleaning & Supplies (disposable eating utensils, mosquito repellent, gloves, liquid soap)
- Tools (flashlights, batteries, pliers, hammers, goggles, dust mask, screwdrivers, etc.)
- Generator
- Battery Operated Radio
- Special Items (spare eye glasses, diapers, wipes)
- Auto fuel (Make sure your gas tank is full)
- Money – ATMs will likely be down during and after a storm, make sure you have cash on hand if needed.

Important details

Pets: In addition to food, make sure pets (cats/dogs) have proper identification tags and properly working pet carriers and leashes.

Shelters: Keep maps and numbers of your nearest shelter listed in case of emergency evacuations. (If you have pets call ahead to locate shelters that allow pets).

Photos: Take pictures of your property before and after the storm for insurance purposes.

LANDSCAPE

Properly pruning trees and shrubs before a hurricane can reduce the debris that may become airborne. Proper pruning also increases the likelihood that a tree can weather a storm. Consult or hire a certified and licensed arborist prior to tree pruning. Landscapers hired to maintain residential and commercial properties must remove vegetation including grass/tree clippings.

Do not begin any pruning or cleanup activities or place trash on the curb during a Hurricane Watch or Warning.

IF A STORM IS IMMINENT

Protect the areas of your home where wind can enter. Secure indows and doors, preferably with permanent County-approved storm shutters. A second option is to board up windows with 5/8" plywood. The boards

should already be cut to fit and ready for installation.

Note that tape **does not** prevent window damage.

Bring in lawn furniture, garbage cans, bins and other items that are not secured and could become airbourne.

If you own a boat, use double lines at the marina. If it is trailered and cannot be garaged, stake it to the ground with rope and fill the hull with water.

Monitor the storm's progress regularly. Visit www.miamidade.gov or call 311 for updates on services. Depending on conditions, bus, rail, garbage and recycling services, as well as airport and seaport operations will be affected.

If an evacuation order is given, you must leave the area and move to a location outside the evacuation zone. Make sure you take your local identification, so you can return after the storm. Turn off your electricity at the main breaker. Unplug appliances.

FLOODING

The Town of Surfside is a coastal community. Storm surge and flooding is possible during a hurricane. The Town of Surfside is currently operating on a storm drain pump system, which helps clear out flood waters quicker than expected. If electricity is lost the pumps become less effective causing water to clear out at a slower gravity flow rate.

EMERGENCIES

USE PHONES ONLY FOR EMERGENCIES. Call 911 only for **life-threatening** situations. After the danger of the storm is passed, call police or utility companies immediately to report hazards such as downed power lines, broken gas or water mains, overturned gas tanks, etc. (**STAY AWAY FROM DOWNED POWER LINES**) Do not drive or walk through standing water.

Mayor Dietch's Home Goes Green with Solar Electricity

One kilowatt at a time, Surfside's Mayor Daniel Dietch and his family are doing their part to harness the sun and protect the planet.

The Dietch family recently installed a solar panel system on their roof that taps into the sun's energy and generates enough electricity to power their entire home.

How is the Dietch house powered at night or when it is cloudy? Through the use of a "net-zero" metering system, the panels export surplus electricity back to the power grid that can be accessed and used when the sun is not shining. This means that on a sunny day, when the panels are creating more electricity than the home needs, the meter will spin in reverse and like an unused cell phone minutes, they can use the "bank" of extra kilowatts.

The recently completed project was coordinated through a public-private program called Property Assessed Clean Energy (PACE), a

local governmental program that allows municipalities to finance private property owners for energy efficiency, renewable energy and hurricane protection improvements to their properties. Homeowners pay nothing up front and are billed annually through their property taxes over a 10-20 year period.

"We first looked at a solar panel system six years ago and the payback was nearly 50 years. Now with net metering, the payback is approximately eight years," Mayor Dietch said. "We are very excited to have used PACE and Ygrene to finance the project. They helped us with the logistics at every step in the process. We are thrilled to be able to use our best natural resource to conserve energy."

In addition to all types of solar, the range of improvements covered by the program includes impact windows and shutters, new roofs, water heaters, pool pumps, insulation and lighting.

Make Your Home or Business More Valuable, Efficient and Safe

The PACE program is managed and funded by a private organization called Ygrene (energy backwards). Ygrene provides 100% financing to commercial and residential property owners for energy efficiency, renewable energy, and water conservation improvements. Financing is repayable over the long term through your property tax bill. Currently 20 Miami-Dade County municipalities are participating in PACE/Ygrene.

All of the contractors have been certified by Ygrene and no funding is required up front. For more information, contact Ygrene Energy Fund Florida at 305-569-0015. You can apply over the phone or at their website www.ygrene.us

Surfside Scores High in Water Conservation Effort

Surfside proved that it is a "water wise" Town.

We came in eighth place among municipalities of our size in the Wyland Foundation's Annual National Mayor's Challenge for Water Conservation held during April, the month of Earth Day. Congratulations and thanks to all who participated!

The real winners are Surfside residents, because the contest was judged by the percentage of residents who participated by visiting the contest website: www.mywaterpledge.com. Visit the website for more information. Other Florida cities that made the top 10 were Islamorada and Destin.

The Surfside pledges will result in the following conservation levels:

- 67,580 gallons of water saved
- \$1,497.41 dollars saved
- 1,891 pounds less in landfill waste
- 167 water bottles not used
- 6 lbs of hazardous waste avoided
- 538 gallons of oil saved
- 5,730 pounds of kilowatts saved
- 281,663 pounds of CO² saved

Turtles Select Surfside Beach for Nesting

Maybe it is the Town's many colorful turtle sculptures that are attracting them, but several real sea turtles have come ashore in Surfside to lay their eggs. Recently, tracks led right up to a new nest next to the beach lifeguard station (At left and below)

Follow These Sea Turtle Guidelines

If you observe an adult sea turtle or hatchling sea turtle on the beach, follow these rules and guidelines:

- It is normal for sea turtles to be crawling on the beach on summer nights. **DO NOT** report normal crawling or nesting (digging or laying eggs) to the Florida Fish and Wildlife Conservation Commission (FWCC) unless the turtle is in a dangerous situation or has wandered off the beach.
- Stay away from crawling or nesting sea turtles. Although the urge to observe closely will be great, please resist. Nesting is a critical stage in the sea turtle's life cycle. Please leave them undisturbed.
- **DO REPORT** all stranded (dead or injured) turtles to the FWCC.
- **NEVER** handle hatchling sea turtles. If you observe hatchlings wandering away from the ocean or on the beach, call: 1-888-404-FWCC or *FWC (Mobile Phone)

shark Awareness

Sharks are some of the most popular, most feared, and misunderstood creatures in the ocean. As much as we love to hate this fearsome predator of the seas, the shark has a key role to play, keeping marine ecosystems in balance. Come join us for this informational presentation and an assortment of material about sharks, including types of sharks, and shark behavior. We will have a speaker from the [Shark Whisperer Organization](#). Their mission is **Advocacy, Awareness and Education** about sharks and our oceans conservation. Their goal is to educate as many people about sharks and help them understand and realize why sharks are important to our oceans and how they play a huge role in keeping the oceans delicate eco system balanced. GONE FISHING

Summer is here! Fishing is a great way to spend quality time outdoors with family and friends. Come join us for this informative presentation on fishing. Participants will learn fishing rules and regulations, how to obtain a recreational fishing license and much more. We will have a speaker from Fish Florida. Fish Florida is a non-profit organization that provides support to groups that teach people, especially children, about Florida fish, aquatic habitats and resource stewardship. Presentation will be held at the Surfside Community Center 9301 Collins Ave.

5 RETIREMENT DECISIONS YOU NEED TO MAKE RIGHT NOW

1. How should I reposition my savings and investments to take advantage of the upcoming Fed Funds rate hike?
2. Am I making the best investment and financial planning decisions so I can retire how and when I want?
3. How can I increase my dividends, interest rates and overall portfolio return *and* lower my fees?
4. Am I currently exposed to risks that may threaten my savings, investments and future sources of income?
5. How can I lower my taxes and safeguard my retirement nest egg?
