MESSAGE FROM THE TOWN MANAGER

Scholars Prove That Surfside's Future is in Good Hands

At our June meeting, the Town Commission honored two Surfside high school students who recently graduated and will soon be enrolling in college. In addition to their impressive academic accomplishments and proud parents, I also admired their strong commitment to serving their community.

Ivette Duran has given hundreds of hours of volunteer service to several organizations including Brides Against Breast Cancer, the Multiple Sclerosis Bike Ride and to our own Surfside Police Explorers, where she helped with traffic control at special events. Ivette also interned at the Surfside Police Department and volunteered at the Parks & Recreation's Summer Camp and the Women's Self-Defense Class.

Manuel Izquierdo aspires to work in the film industry and has served as the president of the Miami Beach High Film Club, historian of the Student Government Association and a member of the Thespian Honor Society. He has also volunteered for the Miami Beach Chamber of Commerce and has already won several film awards.

Our society needs scholars, but we also need leaders. We need young people who are motivated to improve their communities and make a positive impact on the lives of others. If these two young adults are representative of the children being raised in Surfside, the future of our community looks very bright.

- Guillermo Olmedillo, Town Manager

Surfside Scholars Honored at Commission Meeting

Two Surfside students who recently graduated from high school were honored with scholarship funds at the June Commission meeting. Ivette Duran, who was home schooled, will attend Florida International University to study psychology and computer science. Tubby Tabby? Obesity is a Pet Problem Too

Like humans, obesity has become a health problem for our canine and feline companions. It is estimated that about 35% of dogs and cats in the U.S. are obese. This can contribute to

multiple problems depending on species and breed. Obese pets have conditions such as arthritis, type 2 diabetes (cats), respiratory compromise and reduced life span (studies show thinner dogs can live an additional 2.5 years). Managing pet obesity can be challenging. Food is the most common reward for training as well as bonding between owner and pet. The first step in obesity management is to determine that the obesity is not secondary to an underlying medical condition such as thyroid disease in dogs. Once the patient is deemed healthy, veterinary medicine has many tools to help promote healthy weight loss while maintaining optimal health!

Construction May Impact Surfside Residents

The Florida Department of Transportation reports that Surfside residents traveling through Bay Harbor Islands and the Broad Causeway may be affected by lane closures and detours because of construction on Kane Concourse and the bridge through July 2015.

On Kane Concourse, sections of curb, gutter and sidewalks will be replaced, brick pavers will be installed at intersections, there will be new signage, paving and striping. The expansion joints on the draw bridge over the intracoastal waterway are also being replaced, requiring lane closures.

PARKS & RECREATION

SURFSIDE SUMMER CAMP IN FULL SWING

Although it is just underway, memories are already being made at the Surfside summer camps. Youngsters from age six to teens are enjoying activities with their friends and neighbors. The younger group has already made trips to Cool de Sac, the aquatic center and 96th St. Park. Teens have gone to Off the Wall, mountain

biking and to the Opa-Locka Airport for Coast Guard and Miami-Dade Air Rescue presentations.

Something Fishy About This Presentation

The knowledgeable and entertaining speaker from Fish Florida speaks to a group of interested residents at the recent Gone Fishing Education/Awareness lecture held at the Community Center. Fish Florida is a non-profit organization that provides support to groups that teach people, especially children, about Florida fish, aquatic habitats and resource stewardship.

Surfside Beach a Haven for Turtle Nests

Tourists are not the only ones visiting Surfside this summer. As of June 12, there have been seven sea turtle nests confirmed in Surfside this nesting season.

Remember: If you observe an adult sea turtle or hatchling sea turtle on the beach, follow these guidelines:

- It is normal for sea turtles to be crawling on the beach on summer nights. DO NOT report normal crawling or nesting (digging or laying eggs) to the Florida Fish and Wildlife Conservation Commission (FWCC) unless the turtle is in a dangerous situation or has wandered off the beach.
- Stay away from crawling or nesting sea turtles. Please resist the urge to approach the turtle. Nesting is a critical stage in the sea turtle's life cycle. Please leave them undisturbed!
- DO REPORT all stranded (dead or injured) turtles to the FWCC.
- NEVER handle hatchling sea turtles. If you observe hatchlings wandering away from the ocean or on the beach, call: 1-888-404-FWCC or *FWC (mobile phone)

Come join us for this informational presentation and an assortment of material about sharks, including types of sharks, and shark behavior. We will have a speaker from the Shark Whisperer Organization. Their mission is Advocacy, Awareness and Education about sharks and our oceans conservation. Their goal is to educate as many people about sharks and help them understand and realize why sharks are important to our oceans and how they play a huge role in keeping the oceans delicate eco system balanced.
